

LIFEFORCE B RIGHT SPECIAL

AVAILABLE IN 60 TABLETS
Nappi Code: 701573-006

NUTRITIONAL EXCELLENCE IN ONE
TABLET. THE MOST COMPREHENSIVE
SUPPLEMENTATION TABLET ON TODAY'S
MARKET.

B Right Special is trusted by Specialists, Doctors, Homeopaths, Dieticians and other Health Professionals for its unsurpassed quality and therapeutic properties. Top Dietetic and Medical brains in South Africa have scientifically formulated this unique product. It has been extensively used in practices over the past 31 years as a vital tool to assist patients to supplement in the safest, most scientific way.

This revolutionary product that has been based on solid, scientific studies. Talented Dieticians and Doctors have spent countless hours pouring through journals and research abstracts to identify nutrients vital for optimal health. Only the best GMP (Good Manufacturing Products/Practice) raw materials and ingredients have been selected. A careful combination of raw material quality and production practises is used to guarantee maximum nutrient content, absorption and potency. This is coupled with a long tradition of small, short manufacturing runs to guarantee maximum freshness and super-potency.

B Right Special has just recently been reformulated & updated.

For starters you won't find a better one-a-day tablet on the market! B-Right Special lays a solid foundation of essential vitamins, minerals, essential amino acids, as well as potent anti-oxidants & pro-oxidants and Glucose Tolerance Factor combination to make life the fun and energy-filled adventure it's supposed to be! Consider B Right Special as a great start for the day. It is also represents great value for money with one bottle lasting 60days and making it one of the most affordable supplements on the market. Your body will also appreciate unmatched antioxidant action through important nutrients like Lipoic acid and Grapeseed extracts, to mention but just a few.

Research studies have shown that most people do not come close to meeting their nutrient requirements and that up to 80% of these people's diets are marginally deficient in one or more nutrients. This causes many to experience symptoms such as fatigue. Research has proven that supplementing correctly can dramatically improve health by minimizing the effects of aging, strengthening immune system, increasing energy, promoting healing and helping to prevent degenerative diseases. Lifeforce believes that the primary foundation of a sound nutritional supplementation program begins with a comprehensive multivitamin/multinutrient formula, such as B Right Special.

No one can live without the experiencing some degree of stress. Short-term stress is not necessarily bad for you as it is part of everyday life. However, we are often exposed to excessive amounts of stress.

When you experience prolonged chemical, emotional and physical stress, you are at an increased risk of depleting micronutrients. This results in an increase in the amount of free radicals that can cause damage to your body.

Research has shown that this uncontrolled "free radical damage" to the body's tissues contributes to the development of degenerative diseases such as

heart disease, cancer, cataracts, age-related muscular degeneration and central neuro-degenerative diseases i.e. Parkinson's, Alzheimer's and Diabetes.

MEDICAL FACTS ABOUT KEY INGREDIENTS MAKING B RIGHT SPECIAL'S FORMULA SUPERIOR:

B Right Special contains sixteen Vitamins, the most important Minerals components, eight essential Amino Acids, Glucose Tolerance Factor (multivitamin and mineral component), Anti-oxidants, Pro-oxidants and CO-Enzyme 10.

VITAMINS

The acknowledgment that vitamins play an important role in preventing disease has existed since the Scottish physician James Lind published his *Treatise on Scurvy* in 1754. Casimir Funk in the *Etiology of Deficiency Diseases* finally formulated a comprehensive theory connecting diseases to nutrient deficiencies in 1912.

- ❖ Vitamins are organic substances necessary for life.
- ❖ Vitamins are essential to the normal functioning of our bodies and, save for a few exceptions, cannot be manufactured or synthesised by our bodies and must be obtained from the diet or dietary supplements.
- ❖ Food is like the fuel in an engine, and vitamins are the spark plugs.
- ❖ They are necessary for our growth, vitality, and general well-being.

Included in B Right Special are fat-soluble vitamins, (A, D and E) complimented by the B group in balanced portions.

MINERALS AND TRACE ELEMENTS

Since the first decades of this century, scientific and public interest has focused on vitamins. In recent years, however:

- ❖ Research has revealed the crucial importance of minerals and trace elements.
- ❖ As constituents of various enzyme systems, minerals are vital factors in health and well-being.
- ❖ They release your body's natural healing power.
- ❖ Vitamins cannot function or be assimilated, without the aid of minerals and trace minerals.
- ❖ Although the body can synthesize some vitamins, it cannot manufacture a single mineral!
- ❖ Our physical well-being is dependent on consuming all the necessary minerals we require.

AMINO ACIDS

By taking a supplement containing amino acids, you provide your body with the raw material needed to produce the high-powered neurotransmitters, epinephrine and norepinephrine.

Eight amino acids are 'essential amino acids', ones that the body cannot manufacture (synthesize) itself, but must be acquired. Without them, no synthesis of protein can take place.

By stimulating these specialised chemical messengers you can improve

- a. Mental alertness, concentration and optimal brain function
- b. Blood flow to the brain
- c. Brain cell metabolism to more youthful levels

GTF COMBINATION

The discovery of the role of GTF Chromium in health is proving to be one of major importance. It can help stabilise blood sugar levels, increase the body's ability to burn extra fat (adipose tissue) and stimulate the formation of lean fat.

- ❖ Research strongly suggests that GTF Chromium is a protective factor against two of the three leading causes of death - heart disease and Diabetes.

- ❖ Studies also show that GTF Chromium helps control appetite, Hypoglycaemia and protein-uptake.
- ❖ GTF Chromium also counteracts a host of problems wrongly blamed on the aging process, but actually due to an extended GTF Chromium shortage.

GTF Chromium helps and works with Insulin in the metabolism of sugar. A high blood sugar level damages the body in many ways.

GRAPE SEED EXTRACT

Grape Seed Extract has been used clinically in South Africa & Europe for a number of conditions including:

- ❖ Circulatory problems of the heart and brain
- ❖ Capillary fragility and
- ❖ Macular degeneration

LIPIC ACID

Few antioxidants can match Lipoic acid.

- ❖ Lipoic acid recycles other antioxidants such as vitamin C and E, and is more effective against a broader range of free radicals.
- ❖ Lipoic Acid may provide benefits for Cataracts, Diabetes, Heart Disease, Nerve Degeneration, Liver Disease and AIDS.
- ❖ Lipoic Acid functions in both fat and water-soluble body tissues.

CO-ENZYME 10

CO-Enzyme 10 is a naturally occurring fat-soluble, vitamin-like nutrient.

- ❖ Its fundamental role is that of a cellular energy carrier for the mitochondria.
- ❖ It is involved in the stabilisation of cell membranes and is a potent antioxidant. It provides critical support for cardiovascular bioenergetics and myocardial functions.

THE CAROTEAM

Vitamin A, C, D & E and Selenium

This balanced ratio guarantees maximum antioxidant protection, vitamin activity and cellular protection. Aids in keeping connective tissues healthy and strengthens capillaries.

WHO SHOULD USE B RIGHT SPECIAL?

Those who want to ensure Optimal Health & those suffering from:

- ✓ Stress
- ✓ Diabetes
- ✓ Hypoglycaemia
- ✓ Fatigue
- ✓ Chronic infections
- ✓ Can assist Blood pressure problems (High and Low)
- ✓ Blood sugar regulation
- ✓ Energy loss
- ✓ Weight loss
- ✓ Heart health

Those who have -

- ✓ Brittle Nails, White spots on nails & Dull, dry hair
- ✓ Those who want to delay the ageing process
- ✓ Individuals wanting to protect themselves from harmful free radicals
